Principal, Dr Amit Kauts welcomed all the present dignitaries. Prof.Lakhbir Singh, President PAHAL, told that more than 80% lives of the accident victims could be saved due to availability of the blood on the spot. There is lack of awareness that is why large number of people do not opt for voluntary blood donation. Till date we are able to motivate only about 20% donors voluntarily as per our requirement for thesemia, accidents, surgeries etc. Govt. bodies are not so serious about this, even till date there are not active blood donation councils in every district of Punjab, which is mandatory as per NACO guidelines and some of the districts have not yet formed the District Blood transfusion councils. In Punjab we need about two lac units of blood annually, but only about 40,000 units are coming voluntarily,

rest need is being fulfilled by replacement or by professional blood donors, which is against our national blood policy and even ethics.
